Career Objective

To secure a challenging role in the field of Data Science and Artificial Intelligence, where I can apply my analytical mindset, technical skills, and business background to deliver impactful insights and intelligent solutions.

Professional Summary

- Passionate and self-motivated AI practitioner with strong knowledge of Data Science, Machine Learning, and Deep Learning.
- Skilled in Python, R, SQL, and visualization tools to build predictive models and communicate results effectively.
- Adept in handling large data sets of various types for data processing, analysis, interpretation and eventually prediction using various machine learning techniques.
- Completed multiple projects, including Diamond Price Prediction, Netflix Subscription Forecasting, and End-to-End Chatbot using NLP.
- Analyzed and interpreted complex data sets using statistical methods
- Cleaned and transformed data for predictive modeling
- Developed machine learning models to extract insights and forecast outcomes

Core Areas

- Exploratory Data Analysis (EDA) & Data Visualization
- Supervised Learning: Regression (Linear, Ridge, Lasso, Polynomial), Classification (Logistic, Decision Tree, KNN, Naïve Bayes, Bagging, Boosting)
- Unsupervised Learning: Clustering (K-means, Hierarchical, DBSCAN), Association Rules (Apriori, Market Basket Analysis)
- NLP & Chatbot Development (using intents + neural networks)

Projects

- [Diamond Price Prediction](#) – Used regression algorithms to predict diamond prices based on key features.
- [Netflix Subscription Forecasting](#) – Applied time series forecasting techniques (ARIMA/SARIMA) to project subscription trends.
- [End-to-End Chatbot using NLP](#) – Developed a neural-network-based chatbot capable of intent recognition and contextual responses.

- [K-Means Clustering](#) – Used K-Means clustering to segment customers based on behavioral patterns. Optimized cluster count using the elbow method and visualized using PCA.
- [Random Forest Classifier – Sales Prediction](#) – Performed EDA and classification to identify key factors driving sales. Achieved 79% accuracy and 83% precision using RandomForestClassifier.
- [Data Wrangling & Preprocessing](#) – Cleaned and transformed raw datasets by handling missing values, removing duplicates, fixing data types, and engineering features for model readiness.

Certifications and Achievements

- Master’s in Artificial Intelligence – TopMentor(Jul 2024 – June 2025)
- Python with Data Analysis & Data Science – TopMentor (Jul 2024 – Feb 2025)

Key Skills

- **Languages & Tools:** Python, R, ANSI SQL, Minitab, Tableau, MS Excel, OpenCV (basic), Jupyter Notebook, Google Colab.
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Keras, TensorFlow.

Academic Qualification

Examination	CGPA/ Percentage	Name of the Institute	University	Year
B.Com	7.65 CGPA	K.V.Pendharkar College of Arts, Science and Commerce (Autonomous)	Mumbai University	April-2025
HSC (Commerce)	66%	Ramchand Kimatram Talreja College of Arts, Science & Commerce.	Maharashtra State Board	Mar-2022
SSC	85.60%	Chhatrapati Rajarshi Shahu Maharaj Secondary High School	Maharashtra State Board	Mar-2020

Personal Details

Name : Suraj Laxminarayan Choudhari
Address : Dhyan Jyoti heights, karve nagar, Kanjurmarg east 400078.
Contact No. : +91 9075945110.
Marital Status : Single.
Date of Birth : 27th November 2004
Languages Known : English, Hindi, Odia and Marathi.

DECLARATION:

I hereby declare that all the above mentioned details are true to the best of my knowledge.

Place:Mumbai

(Yours Obediently)
Suraj Choudhari
